## **COMMUNITY NOTICE**

### ***Access Control at Cayenne Trace***

The public is hereby advised that Heritage Petroleum Company Limited (Heritage), has installed an access control gate on company lands at Cayenne Trace, Santa Flora in the vicinity of the company's Well Services Compound. The access control gate will become operational on **Friday 1<sup>st</sup> October 2021**, restricting access and egress from Coora Road to the S.S. Erin Road through Cayenne Trace from **6:00pm to 6:00am on weekdays and closed on weekends and public holidays**.

The decision to install an access control gate at Cayenne Trace was done following a security vulnerability assessment which determined that there was an increase in criminal activity at that geographical location and the route was being used for access and egress by perpetrators of illicit activity.

**Please note that the public will continue to have unfettered access from Dalley's Village to the S.S. Erin Road from Ridge Street, onto Coora Road and along Santa Flora Road.**

Heritage would like to thank residents and community stakeholders for their cooperation and understanding on this matter as the company seeks to balance securing the company assets while allowing access to our fenceline communities.

**Note: In cases of an emergency, the gate will be left open for the duration of the event.**

**Please see the Emergency Contact Numbers below:**

**Heritage Petroleum Company Limited Security & Emergency Contacts:**

- **Heritage Command Centre: (868) 649-5521**
- **Santa Flora Security: (868) 649-6751 Ext. 6458**
