## **MEDIA RELEASE**

### ***Heritage Response to Oil Accumulation along Municipal Drain at Point Ligoure, Point Fortin Continues Today***

Heritage Petroleum Company Limited (Heritage) continues its response to the oil accumulation reported along the municipal drain at Point Ligoure, Point Fortin, today, Monday September 13<sup>th</sup>, 2021. The Company first received reports of the accumulation yesterday (Sunday 12<sup>th</sup> September 2021) and immediately initiated its response protocols.

In addition to the ongoing surveillance, containment, cleanup and remediation work, the company has deployed additional resources such as booms, vessels and manpower at the site and risk assessments are ongoing.

Heritage Petroleum advises that there are temporary restrictions to unauthorized persons. The public is therefore advised to comply with all directional signs and instructions and utilize the alternative routes available. Failure to so do may jeopardise the timeliness of the clean-up activities in addition to introducing risk to unauthorized personnel.

The company continues to work closely with the relevant authorities to ensure that all operations are conducted in a safe, efficient and timely manner as per compliance requirements.

Heritage will continue to keep all updated on the recovery efforts.
